

**Use of Personally Owned Electronic Device
PERMISSION FORM
2014-15**

Parents who wish that their child use a personally owned digital device within the Etiwanda School District must read and sign this agreement and submit to the classroom teacher.

The student takes full responsibility for his or her device and to keep their device safe at all times. **The school is not responsible for the security of the device.** The student is responsible for the proper care of their personal device, including any costs of repair, replacement or any modifications needed to use the device at school.

Student personally owned digital devices and content including messages and digital photos, may be searched by the District under limited circumstances, in accordance with the limitations imposed by state and federal law. Specifically, school officials may not search student personally owned devices including accessing and reading of their messages and digital images, unless those officials (1) have reasonable suspicion, based on objective and articulable facts, that the search will provide evidence that the particular student was violating either the law or a school rule; and (2) the scope of the search is reasonably related to the objectives of the search and not excessively intrusive in light of the nature of the infraction.

Violations of any Board policies, administrative procedures or school rules involving a student's personally owned digital device may result in the loss of privilege to use the device in school and may result in disciplinary action.

The student must comply with a teacher or staff member's request to shut down the personal device or close the screen.

Students are not permitted to use any electronic device to record audio or video media or capture still images of any student or staff member without their permission. The distribution of any such unauthorized media may result in discipline including but not limited to suspension, criminal charges, and expulsion. Nor can any images or audio/video recorded at school be transmitted or posted at any time without the express permission of a teacher.

The student should only use their device to access information for educational purposes. The student will use the district's wired or wireless network while on the school campus. **Use of a non-district owned wireless or cellular (i.e. 3G, 4G LTE, etc.) content service provider is not allowed.**
